SOFT SKILLS

- Project Management
- Communication Skills
- Teamwork
- Time Management
- Critical Thinking

TECHNICAL SKILLS

- Programming Languages: Java, Python, C/C++, R, Kotlin
- Web Development: HTML, CSS, JavaScript
- Database Management: SQL, MySQL
- Tools & Platforms: Visual Studio Code, Eclipse, RStudio, Android Studio, Git/GitHub, Jupyter Notebook, Figma, Power BI
- Office Tools: Word, PowerPoint, Excel

LANGUAGES

- Sinhala
- English

PROFILE

“I’m an undergraduate student in Information Technology at the Sri Lanka Institute of Information Technology (SLIIT), eager to apply my academic learning in a practical environment. I’m open to gaining hands-on experience in any area of the IT field, and I’m enthusiastic about contributing to a dynamic team while learning and growing professionally through an internship.”

EDUCATION

Rathnavali Balika Vidyalaya, Gampaha	2013-2021
GCE Advanced Level (A/L) Examination	2021
• Combined Mathematics-C • Chemistry-C • Physics-S	
GCE Ordinary Level (O/L) Examination	2018
Web design for beginners course(University Of Moratuwa)	2024
Python for beginners course(University Of Moratuwa)	2025

PROFESSIONAL QUALIIFICATIONS

Sri Lanka Institute of Information Technology (SLIIT)	2023-2027
• BSc (Hons) in Information Technology Specialising in Information Technology	
• Last semester GPA - 4.00

PROJECTS

- **Online Examination System For Employees** 2024
 - Contributed to the frontend development of an internal exam platform for employees during the 1st year, 2nd semester. Developed the "About Us," "Contact Us," and "Q&A" pages using HTML,CSS and JavaScript. Focused on creating a user-friendly layout and responsive design.

HTML | CSS | JavaScript | VS Code
- **Online Employee Management System** 2024
 - Worked on the "Contact Us" feature to handle employee ticket inquiries during the 2nd year, 1st semester. Developed the frontend and implemented CRUD operations using HTML, CSS, Java and MySQL for storing and managing user inquiries.

HTML | CSS | Java | MySQL | Eclipse
- **Bus Management System** 2025
 - Contributed to the Financial Management function during the 2nd year, 2nd semester. Developed features for adding and managing staff salaries, including CRUD operations, search, filter, and report generation from the admin side. Used the MERN stack for backend or integration tasks.

MongoDB | Express.js | React | Node.js | VS Code | GitHub
- **VaultVision - Personal Finance Tracker Mobile App** 2025
 - Developed a personal finance management mobile app using Kotlin and Android Studio. Implemented features to add, edit, delete, and categorize financial transactions, set monthly budgets, and view income/expense trends through visual graphs. Used Shared Preferences for storing user data locally and integrated budget status notifications. Designed with a clean, user-friendly interface to support better money management for individuals and families.

Kotlin | Android Studio | Shared Preferences | XML
- **Website Design-Daily Mail UK** 2025
 - Redesigned key sections of the Daily Mail UK website using Figma, focusing on enhancing the user experience for the video page, video submission flow, and comments interface. Applied modern UI principles to create a clean and intuitive layout, ensuring improved readability and seamless interaction. Incorporated user-friendly navigation, responsive design elements, and clear content hierarchy to support engagement with multimedia content. Collaborated on the redesign to deliver a more accessible and visually consistent interface aligned with brand identity.

Figma | UI/UX Design | Prototyping
- **Booking Management - SmartCampusHub** 2026
 - Designed and implemented the booking management module for the SmartCampusHub system using a full-stack approach (Spring Boot + React). Developed key features including booking creation, status updates, and user-specific booking views. Focused on delivering a seamless user experience with clear navigation, responsive interfaces, and efficient data handling. Integrated RESTful APIs for real-time booking operations and ensured smooth interaction between frontend and backend components. Contributed to improving system usability by organizing booking workflows and maintaining consistency with the overall application design.

Spring Boot | React | REST APIs | PostgreSQL
- **Study Buddy Finder - StudySmart** 2026
 - Designed and developed the Study Buddy Finder module for a MERN-based web application, enabling users to create, join, and manage study groups efficiently. Implemented core functionalities such as group creation, membership management, search and filtering, and interactive dashboards. Focused on enhancing user experience by building a modern, responsive UI with intuitive navigation and visually appealing layouts. Integrated backend APIs for real-time data handling and ensured smooth communication between frontend and server components. Contributed to improving user engagement through organized workflows and consistent design across all module pages.

MongoDB | Express.js | React | Node.js | UI/UX Design
